

# CRISI-ADAPT

## Climate Risk Information for Supporting ADaptation Planning and operaTION – Phase II

This Demonstrator Project has been founded by the European Institute of Innovation and Technology (EIT) Climate-KIC

### General objective:

Monitor and improve the adaptation planning to climate-related risk through a real-time implementation and validation according to near and seasonal range forecast of climate-related natural hazards.

**Period:** Jul 1<sup>st</sup>2019 to Jun 30<sup>th</sup> 2022

**Budget:** 1.976,082 €

### Climate-KIC partners involved

### External participants

### Problem owners

# Sectors identified

## ✓ Water management for agriculture and supply

(FIC & FCT-NOVA)

## ✓ Flooding / emergency response

(Aquatec & Paragon Eu)

## ✓ Energy planning

(CUT & CEA)

## ✓ Port infrastructures and operations

(FVP)

# Sectors & demonstrations

## Matching: Sectors & Demonstrations

8 demonstrations in 5 countries according to 4 sectors

Demo ID	Sector	Country and region		
		Spain	Malta	Cyprus
1	Water management for agriculture and supply (FIC & FCT-NOVA)	Andalucía		
2	Flooding / emergency response (Aquatec & Paragon Eu)		Malta	
3	Energy planning (CUT & CEA)			Lakatamia
4	Port infrastructures and operations (FVP)	Valencia
