

# Sustainability Framework

**SUSTAINABLE DEVELOPMENT GOALS**

- 3 GOOD HEALTH AND WELL-BEING**
- 8 DECENT WORK AND ECONOMIC GROWTH**
- 9 INDUSTRY, INNOVATION AND INFRASTRUCTURE**
- 11 SUSTAINABLE CITIES AND COMMUNITIES**
- 12 RESPONSIBLE CONSUMPTION AND PRODUCTION**
- 16 PEACE, JUSTICE AND STRONG INSTITUTIONS**

# ONE PORT CITY

The Halifax Port Authority is committed to ensuring port operations consider the needs of the community, local habitat, and short-term and long-term well-being. Sustainability is built into every facet of the Port and how we operate.

We meet the needs of today's shipping, cargo, and cruise operations, while planning for the needs of tomorrow, focusing on three key pillars: **community**, **economics**, and **environment**.

## The Sustainability Lens: What we do matters

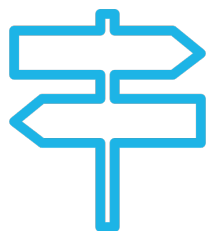

To truly become One Port City, we need to continue to collaborate and engage with our partners and the surrounding community. We need to stay future focused and keep finding new ways to become more sustainable. We need to continue to earn trust by doing what we say we will do. We need to keep living our values.

## Why a Framework is Important

- Harness and coordinate initiatives
- Create structure & organize thinking
- Develop new ideas
- Engage customers, partners, employees & community
- Identify goals & establish evaluation for continuous improvement

## Next Steps

- Continuous Improvement
- Sustainability reporting every two years
- Establish Supplier Diversity Policy aligned with UN SDGs
- Adopt measured GHG Reduction Targets
- Establish Sustainable Infrastructure Policy for future development

## Our Guiding Principles

Be One Port City

Future Focused

Collaborative & Engaged

Sustainable

Trusted Partner

Port of  
**Halifax**
