ALL ABOARD!

Set sail and discover an ocean of opportunities

SCRIPT

This script serves as a guide to inspire the moderator to develop the activity All aboard!

KEY MESSAGES TO CONVEY

- **We are all unique.** On some cruise ships, crew members from more than 60 nationalities can be working. In addition, crew members are lucky enough to meet with passengers from all over the world and to visit wonderful destinations around the globe. Life onboard offers an opportunity for personal growth! Each nationality has its own culture and traditions to share. Respect for diversity is at the heart of travel.

- **On board, there are hundreds of professionals with different skills and backgrounds.**
  On cruise ships there can be **more than 400 different jobs**. Some of these require more technical training (captain, deck team, machinery, etc.); others require training aimed at offering an excellent service on board (kitchen team, entertainment, excursions...) and others an artistic training (musicians, dancers, acrobats, etc.).

- **Teamwork, teamwork and teamwork.**
  Crew members have clearly defined responsibilities and tasks and truly work as a team pursuing a common goal.

SCRIPT PROPOSAL

BLOCK 1: INTRODUCTION (10 MINUTES)

Introduction by the **class tutor** *(2 minutes)*.
The moderator reads the following text (narrator/poetic tone):

The ship is about to set sail from port.

The crew is ready to start a new journey.

It is a team made up of professionals from more than 60 countries: their cultures are different, something that excites them because they will be able to learn customs and traditions from many countries.

Their training is also varied. Some work with the captain and are responsible for getting the ship to sail; others are part of the kitchen team and it is in their hands to prepare delicious dishes for their colleagues and passengers; others are musicians, acrobats, dancers... and their main mission is to entertain guests.... And so on up to more than 400 different positions.

A strong feeling spreads among them: that of a team!

Passengers from all corners of the world also travel on board, ready to enjoy an unforgettable holiday. During the trip, you will discover fascinating destinations and new cultures and traditions.

It is time to weigh anchor and set off on a journey that will unite cultures, allow crew and passengers to experience adventures they will never forget.

So... Are you ready? Let's set sail!

Moderator

Good morning, Crew!

I am Captain (add name) and our mission today is to get to know some of the professions that exist on board. Are you ready? 😊 .... But before we get started, who knows what a cruise ship is?

Interaction with children

The way we're going to discover these professions is through a game... which I hope you'll like a lot!

What do you think if I tell you that each one of you will play a professional and will be in charge of explaining to your colleagues what their work consists of and some curiosities about these roles?

Now, you must form a pair with the partner next to you.

Next, we will give you some cards in which you will find the profession that you will have to explain to the rest of the class.... But beware, the content is secret... You can only share it with your partner... The rest of the class will have to guess what profession you're representing!

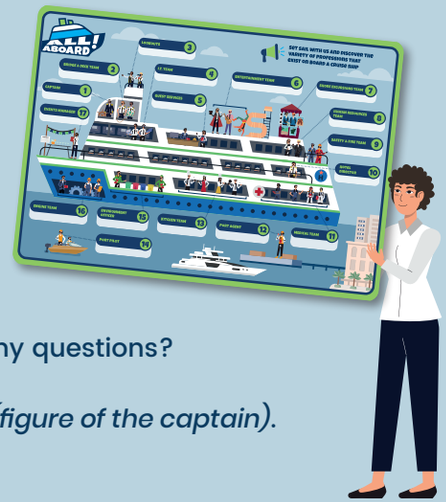
As you can see, the card has three sections:

- A description, which you can read, and then some hints so that you can:
- Draw key elements of your profession on the blackboard.
- Explain the profession through mime, that is... without speaking!

We have suggested some options and... If you can think of others, go for it!

Each couple will have three minutes... don't worry, I'll help you with the time!

When the performance is over, the rest of you should write on the worksheet *(show the sheet so they understand)* the names of the classmates under the profession you think they have represented. In the end we will compare the results.



Is everything clear? Do you have any questions?

Let's do the first example together *(figure of the captain)*.

Distribution of cards.

And now that you all have your profession, we'll give you two minutes to prepare it.

BLOCK 2:
DEVELOPMENT (40 MINUTES)

Are you ready? Let's start!

Interpretations (3 minutes / couple).
Applause after each performance.

BLOCK 3:
CLOSING (10 MINUTES)

Congratulations, you did great!
A big round of applause for all!

All that's left is to see if you've got the professions correct...
Do you want to compare your answers with the rest of your class?

Two minutes later, the results are checked.

The bridge and deck team are made up of... and so on until all professions are covered.
