About the Global Education Programme

DP World has developed an innovative global education programme for our employees to deliver in local schools to 8-14 year olds as part of their volunteering leave. Working with a specialist agency and consulting with teachers, the content covers a wide range of topics to engage young people in trade and logistics, a little-known and often overlooked part of the global economy.

85% of employee volunteers agreed that their **self-confidence** and **job satisfaction** were **improved** by the experience.*

“ My highlight was helping the children **understand what our work is** and **how important ports are for our society**.* ”

DP World employee

“ The **highlight** of the lesson for me was that the children became **aware of port activities** and some might even think of **pursuing it as a career**.* ”
